Re: Greek chapter data request

Thank you for meeting with me to discuss ways Student Life and the AIGC can work together to maximize success for the Rensselaer Greek system through Clustered Learning, Advocacy and Support for Students (CLASS).

As we discussed, I would like to collect data on each chapter to inform our future conversations. I ask that you both work together to provide responses to the questions on the attached document, which focus on each organization’s membership, chapter house, student leadership, financial management, and safety and security.

Please provide the responses to Grace Vega (vegag@rpi.edu) in my office by October 15, 2016. I look forward to our continued work together.

Thank you.
